MESSAGE FROM THE OSGA PRESIDENT

2014 promises to be a busy and exciting year. Along with preparing for the upcoming Ontario 55+ Summer Games in Windsor/Amherstburg and 55+ Winter Games in Haliburton, the OSGA and its Districts will be very busy providing the 55+ adults of Ontario as many opportunities as possible to be active physically, mentally and socially throughout the year.

Participants enjoying these activities are encouraged to "Bring a Friend" to join them and thus help get the message out to a broader area and involve more participants. Enjoy the games!

Also all the best to those who plan to represent the OSGA and attend the Canada 55+ Games in Alberta in August.

2014 and 2015 will prove to be exciting times for us with the 2014 Summer Games being hosted by Windsor/Amherstburg in August. Six months later we will be attending the 2015 Winter Games in Haliburton County, the second time there in four years. These are events you will not want to miss. More information on both games is provided in this magazine for you. ***"On behalf of the District 7 Executive Committee you are invited to become a member and participate in upcoming games, we would love to have your support."*** I speak from experience when I tell you that once you have been to the OSGA games you will want to go again, and again, great fun and a truly rewarding experience.

91 YEAR OLD WORLD WAR II VET IS "*TRULY AN ACTIVE SENIOR*"

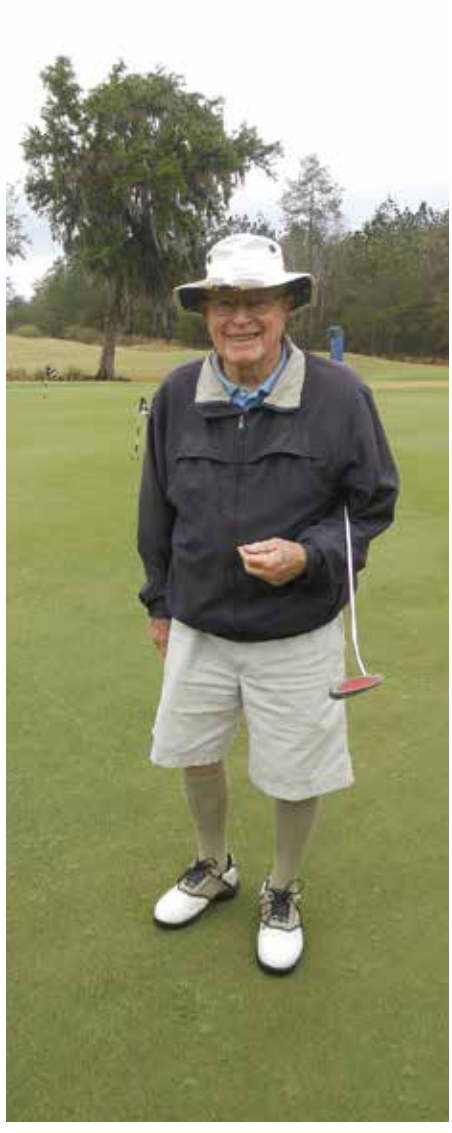
By Paul Allen

Don Lewis was born 8 December, 1923 in Stratford, Ontario and moved to Philadelphia when five. After Japan attacked Pearl Harbor in 1941, Don enlisted and was assigned to the Army Air Corp where he graduated from gunnery school at Las Vegas Army Airfield in June 1943. Assigned to a B17 Bomber crew, he completed twelve missions with the 15th Air Force from Tunisia to Italy, Austria, and Greece before being shot down on the 19th of December 1943. He was a Ball Turret Gunner on the 10-man crew of a B-17, Flying Fortress. Sent to bomb a Messerschmitt factory near Augsburg, Germany, Lewis' plane was hit and he parachuted out over the Tyrolean Alps on the Italian/Austrian border. Landing near the small village of St. Jacob, he was captured and became a prisoner of the Nazis.

Don survived the harsh conditions of his internment in Stalag Luft VI in East Prussia, persevered through forced marches to other POW camps, and was liberated on 2 May 1945 by the British Royal Second Dragoons.

Active in many sports, Don skied before and after his 4 years with the US Air Force during WW II and was later introduced to canoeing in 1948 when he canoed through the Adirondack Mountains. He sailed design boats in competition until he was 80 and still meets with friends to golf and salt water fish. A doubles tennis player for years, he also has played golf since his teens. He set a goal to golf till 90, and at age 91 still plays.

To avoid mental decay, Don played Bridge for years, has developed a love for computers, and is an avid reader. Having learned about the Ontario Senior Games 55 + organization, Don said: "***If I lived in Ottawa I would most certainly join your senior group. People who make a study of such things say that interacting with people your own age is beneficial for health and happiness***".



Don Lewis' story is a prescription for physical and mental health. His is a lesson for all. Stay active. Participate. Get involved. He's now taken on his grandson's challenge to learn how to fly a battery powered remote controlled helicopter. He says "I am having a ball learning to fly it without crashing". Did I mention that Don is 91 and a super active senior?

EXERCISE VITAL TO "*LIVING WELL*"

Staying healthy and feeling your best is important at any age and that doesn't change just because you have a few more grey hairs. The sheer number of athletes who participate in the Ontario Seniors Games clearly demonstrates that the myth of ***"growing older automatically means you're not going to feel good"*** is being debunked!

"Exercise is vital for staying healthy throughout life and the best way to be active for life is to choose exercises you enjoy!" says Jane Proudfoot, Director Recreation, Sports and Fitness at the Recreation Association of the Public Service of Canada (commonly known as the RA Centre). ***"We see it every day in the actions of our members whether it is on the badminton courts, softball diamonds, curling rinks, bowling alleys, tennis courts or participating in one of the our many club programs. Our members' fitness and passion for sport are major components of an active and healthy lifestyle. Adding to this is the camaraderie that comes from friendly competition and you have a recipe for success!"***

Competition in sports is a wonderful motivator at any age. When it comes to training for competitions or just working out as part of a healthy lifestyle, ***competition between members has inspired people to reach heights they thought impossible. It is the cornerstone for a successful workout! Even if competition is not your thing, the dedication, determination, and enjoyment that an athlete exhibits is infectious.*** A by-product of active living is the fellowship and connection with like-minded people through ***social network***.

Ottawa's RA Centre is nestled in the middle of the City. It is home to close to 4,000 active seniors. ***"Our RA Centre community is speckled with national ranked athletes both in sports and games like bridge and chess, all of whom mix and mingle with weekend warriors and fun seekers alike,"*** says Ms. Proudfoot.

The strength of the Ontario Senior Games Association and their flagship programs demonstrate that the 55 plus age demographic has a robust presence in today's world. We salute the athletes who regularly participate in these games. Good luck and good fellowship to everybody!

"PICKLEBALL" - FASTEST GROWING SPORT INNORTH AMERICA By Paul Allen

Pickleball is "the fastest growing sport in North America". In Canada there are more than 5,000 active players and over 100,000 in the USA.

What is PickleBall?

"Pickleball" is played on a small court similar to a doubles badminton court. Players with a paddle hit a 3-inch wiffle ball over a 36" net. The ball must bounce once on each side before volleys are allowed. So, Pickleball is a hybrid of Tennis, Badminton, and Table Tennis.

History of Pickleball.

Pickleball was invented in 1965 by the Pritchard family on an Island outside of Seattle, Washington. They made two plywood paddles, lowered the badminton net and used a neighbour's wiffle ball. Hitting the ball over the net they improvised rules. The game has now spread to the Netherlands, Costa Rica, and even to Bora Bora. Rumours persist that the sport was named after the Pritchard family dog, "Pickles".

A Fun Game

This game is "fun". It's a fast moving sport and the benefits include aerobic exercise, friendly competition, and opportunities to meet with new and old friends. This trending game could be for you. There are opportunities to test your skill in a more competitive atmosphere such is the case of Christine Rogers and Barb Taylor from District 7 Ottawa West who compete at the Provincial level.

"I Took to the Game Like a Duck in Water".

Christine Rogers and Barb Taylor captured the gold medal in the "Pickleball" doubles competition at the Ontario Senior Games Association Eastern Regional Games held this past summer in Cornwall. Representing

District 7 Ottawa West in the games, they won all five of their round robin matches on the way to District 7's only gold medal performance in the multi-sport 55+ senior events.

Rogers and Taylor played as a Pickleball team only one other time winning a gold medal in competition in Oshawa before garnering another gold medal in Cornwall. Taylor, who has played tennis for 20 years and only 1 1/2 years of Pickleball, said she took to Pickleball like a "duck to water" and really enjoys the sport. Rogers has played Pickleball for 5 years and together the twosome have enjoyed their recent successes.
